# Miraculous Medicine" - Two Healers and Homa Therapy

*Fran Bizberg  
Wysoka,  
Poland*

*(Fran and Jarek Bizberg run the Homa healing center "Oasis" in Wysoka, Poland. This was Janusz Fugiel's and Krzysztof Rech's first visit to Oasis.-Ed.)*

The following are excerpts from my meeting with Janusz Fugiel and Krzysztof Rech, two therapists who work in Bioenergy Therapy, polarity, acupressure, Reiki and chiropractic rehabilitation. They practice Agnihotra and use the Agnihotra ash in their healing work-with amazing results.

*Janusz:* My name is Janusz Fugiel. I am already benefiting from Agnihotra for over five years, thanks to Jarek who convinced me to do it. I am a healer and work in partnership with Krzysztof. I am also a chiropractor and use various other healing techniques.

We make Agnihotra ash paste, which we use for healing spinal diseases and skin diseases, even cancer. I have healed patients with skin cancer using the ash. The Agnihotra ash helps to heal all kinds of skin diseases-actually removes all kinds of skin diseases.

We have had a number of experiences where we have healed breast cancer using Agnihotra ash. The Agnihotra ash paste which we make is simply Agnihotra ash mixed with propolis. That's all it is!

We do this freely. We do not charge for this kind of Agnihotra ash healing, and we have incredible results with this.

*Krzysztof* I can tell you this much. The problems and diseases that have come as a result of Chernobyl...because of this, a lot of women have developed breast cancer and other female diseases. It is like a plague! Women are suffering from these diseases.

We travel to a healing clinic in Chelm, next to the Russian border, where most of the radioactivity occurred. There we treat a lot of sick patients.

I can say that this is not a healing that takes a long time. It is a healing that happens very fast. Actually, by the next day, there is already an incredible result and effect on women who use Agnihotra and Agnihotra ash.

For example, I made one experiment with a sick woman. I covered half of her body with Agnihotra ash paste. The other half of her body I left alone. The next day when she came, I saw that the field of energy over the half of her body that had been covered with Agnihotra ash paste was filled with energy. (Krzysztof is clairvoyant.) The other half was empty, lacking energy.

myself and I believe that the mind is without any limits, and that we have a great job to do-that is, to help those people who don't realize this.

There isn't much I can say. The most important thing is it's not a matter of talking about oneself. It is the love that is in your heart.

People are losing themselves in all kinds of emotions like hatred and greed. With love and a smile, we can do this great job. I really feel the love and a strong heart connection with you.

(Vasant commented about how the Agnihotra ash works.)

*Vasant:* Some people ask, "How much quantity of ash should I be using?" Actually, it is not a question of quantity. The way the ash works is called *Devayana* method. *Devayana* is Sanskrit for Divine. *Yana* means vehicle. This works by the *Devayana* method, so quantity is not important.

(Vasant then spoke about the attitude one should always maintain in healing.)

*Vasant:* You should never desire that the person should get well. You say, "If it is Thy will, then may this person be healed." That means, not my will-only if it is Thy will, let him get well.

Otherwise, what happens? Because you have good karma behind it and you desire that this person get well, sometimes it is granted. But then you become a partner in his karma.

(Janusz and Krzysztof went to the healing temple at Oasis to sit for sunset Agnihotra. When they returned, they had strong impressions, which they shared.)

*Krzysztof:* The energy here connects you with the whole universe, in this temple. It is a healing energy which helps all living beings on earth ...

The radiance that is happening here due to Agnihotra and your (Vasant's) being here ... the energy has great meaning for us as human beings.

The first feeling I had when I entered the temple tonight was that I felt a strong field of energy. After Agnihotra meditation, the energy field expanded. I experienced a kind of triangular energy field.

What can be said is that in that temple people can be helped; most importantly, they can be healed in this place. Sooner or later, this is going to be a miraculous place of healing. It's just a matter of time. This place is going to be more powerful than Czestachowa.

# Poland Will Be Mecca of Healing

*Jarek Bizberg  
Wysoka, Poland*

Krzysztof also told us that from the top of the temple he "saw" a laser beam of light going up into the sky. He also saw light energy emanating from the large Shiva lingam which had just been installed in the temple that morning.

It was a very high energy meeting. Afterwards, both healers stated that they wanted to work with us and do some healing work at Oasis.

Two years ago when Vas ant landed at Warsaw Airport, Fran and I were there to receive him. As soon as Vasant sat in the car he asked us to go to a place called Jordanow, which is south of Krakow, and look for some land in the mountain forest area nearby.

During the last two years Vasant has visited Poland several times. Last winter Fran and I accompanied Vasant to several places in the mountain region where small currents of water flow downwards which later becomes the Skawa River. At each of these places Homa healing fires were performed and Mantras were chanted. Since there was snow all around, we had to leave the car and walk some distance in the snow to reach these places. Vasant said it was rejuvenating the ancient area of Homa fires and Vedic Mantras.

After we found the exact spot we wanted, Vasant said that in ancient times this area was known as "Bhrugu Aranya" (forest of the Bhrugus) and at this place there was a famous ashram of the Eternal Avatar Lord Parashuram where healing fire was maintained around the clock. Pointing to one particular area, Vasant said, "That place is so sacred that we would not like to walk here with shoes on." There was snow all over the mountains as we walked in woolen socks and did some

Homa fires at that spot.

In 1995 some land was purchased and the old wooden house on the property was repaired. On September 9th, 1996, the Forest Healing Temple constructed out of wood was inaugurated by Vasant.

The following are extracts from Vasant's talk on that day to the group assembled on that occasion.

"The energy here is so powerful. People will sleep here as they have never slept before. They will feel relief from all cares, all physical illnesses. Being in this atmosphere will really heal. Of this, be certain.

"This is really like sacred soil.

"Revelations are coming true. Prophecies foretold greatest destruction. Much is reversed now. Devas are all around places of fire and the planet will be saved by Divine will. Then it will be Kingdom of Heaven on earth-peace, bliss, prosperity for all.

"Now the end is near. Many will now come to the fire. Poland will be the center for Eastern Europe. Much healing work is there-many fires.

"At this place, healing energies will develop more and more. Strict

disciplines should be practiced here. This will allow great healing to begin throughout Poland. Stay pure in your focus. Do not be deterred.

"Once Yajnya is introduced into the atmosphere nearby this river, the water will change.

"Wysoka is now charged with energy. When fires begin there you reactivate these cycles that coincide with natural rhythms and wildlife will be restored to that area.

"Development of Wysoka as a healing center is Our work. The instruments chosen to take care of this place are to bring healing and give love to the people. Very simple. Not complex. Not intellectual. Let the people experience this love. Not philosophical. Real.

"This is truly a holy place. You can feel how wonderful it is, how the energy is just waiting to be activated. Once that is done, the whole surrounding area will vibrate to a different frequency. You will hear it in nature.

"The energy at this place is to be revived. Certain Eternals are ever present. You can feel the shift in energy when you come here. So great care is to be taken.

# Agnihotra is for Everyone

*JarekBizberg*

Maintain simple disciplines-minimum two hours of Yajnya daily.

"This is a holy place. Healing powers will be supercharged here. Cleanliness is vital. The energy here is very pure. It is like the unstruck music heard in ancient temples. Such is also heard in Parama Dham in Madison, Virginia, U.S.A. Devas will work with you.

"Rejuvenation. Rejuvenation starts here. Tapas. Tapas. This is land of Tapas.

"In this country, Poland, Vedic Mantras have been used for many years to seed the atmosphere and ready this land for times to come. Long time back Poland was chosen by the Kalki Avatar to be Mecca for healing. This is already under way.

"In times of Krishna, in times of Buddha, in times of Christ, all teachings spring from the same source."

Agnihotra is a very simple process which ANYONE can do. One does not need to be formally educated, ordained or graduated with degrees from a university. A child can perform Agnihotra, and in many families children actively do just that. Of course, small children must be supervised for safety.

The idea that only men can perform Agnihotra is false. Anyone, male or female, can do this simple practice.

It is also not reserved for holy days or holidays. Agnihotra is best when practiced regularly, every sunrise and sunset. One need not wear a particular color or a particular dress. One can be of any religion. In South America Agnihotra is practiced widely by devout Catholics.

Agnihotra is simply a scientific aid to a polluted planet. It does not interfere with one's practice of one's religion. In fact, it enhances it and makes one a better Catholic, Jew, Muslim, Buddhist, Hindu, etc. Honor and practice your religion with all your heart. Practice Agnihotra for relief from effects of pollution on mind and atmosphere.

The aim of human existence is to reach the state "Not my will but Thy will be done." The state to be achieved is "Love thy neighbor as thyself" and the means to achieve this is "Be you transformed by the renewal of the mind".

# Experiences with Agnihotra Ash

The following experiences were told at a meeting of farmers whom Vasant addressed in June, 1997 at "El Valle de Ixora" farm in Valera, Venezuela.

## **Mr. Juan Leal:**

Here one has the total security that nothing bad can happen with this [Homa Therapy]. This is not fanaticism, because fanaticism is one thing and the level of consciousness from experience is another, which is what is happening with us. When you apply something and get the results you cannot call it fanaticism but awareness of a result that functioned.

The first experience that we had with the Agnihotra ash was in our house. An avocado tree was fully covered with worms. In the morning, the yard would be fully covered with black excrement from the worms. We took a bucket full of water and added three spoonfuls of Agnihotra ash and poured it all over the foot of the tree. The next day we didn't know where the worms went. They disappeared, and we didn't find any dead worms, either! This tree never had worms again and its fruit is marvelous.

Once, some cows got very ill with some strange disease. They would fall down and couldn't get up. We would do hand healing and give them Agnihotra ash with water. The next day they were all

standing up and walking again!

I also had an experience with eighty chickens. They were all two months old when they got the disease "buba", which causes blindness in chickens; then they swell up and die. In this area all animals now get sick. I immediately applied ghee (clarified unsalted butter, which is extremely medicinal in Ayurveda) and in half an hour all the chickens were cured and their eyes were decongested.

My neighbor had a cow who got sick and died. My cow got infected with the same disease. It is a fatal disease of diarrhea and hemorrhaging, lasting twenty-four hours. My neighbor recommended that I use a drug to cure it, but I remembered another calf that I had healed with Agnihotra ash, ghee and water. I prepared a bucket of water and put in one spoonful of Agnihotra ash and one spoonful of ghee. The cow drank half the bucket of the prepared water. The next day, my neighbor saw that the cow's hemorrhaging had stopped. Again I gave the Agnihotra ash with ghee to the cow, but this time in front of my neighbor. I told him that I produce this ash at exactly sunrise and sunset. The next day the cow was eating again and was as healthy as before. This was the best publicity that I have ever had, because the neighbor started telling everyone that anything I

*compiled by  
Maria Cecilia Mendez  
Venezuela*

have here on the farm is safe; the animals never get sick!

**Mrs. Edicta de Leal:**

One of our cats was injured and broke its leg. The leg had a very severe wound, all swollen and with a very bad odor. It was to be amputated. I applied a compress of Agnihotra ash with water and ghee to the leg every day. A tumor which had formed inside the leg opened and drained, leaving a small hole. I kept applying Agnihotra ash to the area every day. In fifteen days, the cat was completely normal. Even new hair grew back!

A bat came and sucked on the mammary glands of a cow that was about to give birth, leaving a very deep wound. We applied Agnihotra ash and ghee to the wound every day. Afterwards, since the wound was very big, we just applied Agnihotra ash and the wound healed completely.

The calf of that same cow was also bitten by a bat, but on the neck. We applied Agnihotra ash and ghee and it healed.

We also give ghee to the cows to eat, and it accelerates the birthing process.

**Vianney Garcia, from Valera City:**

I had bought two hectares of land with my brother. One part of the land had fruit trees in production. The part of the

land that was given to me had no production at all, but I didn't worry because I had faith in the Agnihotra ash. I started doing the fires of Agnihotra and Om Tryambakam. First, I would spread the ashes on the soil, then make seedbeds with the ash, and then plant. In one year both parts of the land looked exactly the same because of this. Incredible!

For three days, one of my daughters had a very bad toothache. Even though she was very skeptical, I gave her healing energy with my hands and I gave her a massage with Agnihotra ash and ghee. When I finished doing this, she said, "Look, blood is coming out. I haven't eaten in three days; it's going to get worse!" I told her that this would make it heal. Later she got up from bed and said, "The pain is all gone and I'm hungry. I want to eat!"

**Nelly Cruz, from Valera City:**

I had an experience with my husband, Jesus del Rio. He has very white skin, but at his job his skin is constantly exposed to the sun. On his left arm he was having a burning sensation and it was becoming all purple. We thought it could be skin cancer or some type of skin infection. I applied Agnihotra ash with ghee for three straight nights. In one week, he was completely cured.

## 5 A.M. Mantras - Purport

*Om bhadram karnebhih srnuyama devah  
bhadram pasyemaksha bhiryajatrah |  
sthirairangais tushtuvansah tanu  
bhirvyasema devahitam yadayuh ||*

*Svasti nah indro vrddhasrvah  
svasti nah pusa vishvavedah |  
svasti nastarkshyo aristanemih  
svasti no brhaspatirdadhatu ||  
Om shantih shantih shantih*

Purport:

May we hear with our ears only the blissful. You who protect those who perform YAJNYA healing fires, may we see with our eyes only the blissful. With steady limbs and strong bodies we praise THEE. May we spend whatever life is allotted to us in THY service.

(Almighty is One. There are various forces hierarchically working under HIM to administer various universes according to the law of Karma, law of reap as you sow. They are visible and invisible both. DEVAS is one such category. The word DEVA comes from the verb DYU, meaning "to shine". The word "divine" in English comes from the same root.

Divine path means path of light. Devas always bless.)

*(To be continued)*

# Agnihotra Healings in Miami

These are our experiences with Agnihotra ash:

Three years ago when we started to do Agnihotra we had a pet ferret, and it had some problem in one of its eyes. It couldn't open the eye. My children put Agnihotra ash in its vitamins. The ferret ate it, and the next day the ferret's eye was normal. Later on, the ferret started to lose its fur. It looked skinny and sick. My children again gave it Agnihotra ash several times a week in its vitamins. One week later the ferret recovered its fur and looked healthier.

When I read in the book *Homa Therapy, Our Last Chance* how to prepare medicines with Agnihotra ash and ghee, I started to prepare them. Because I had hemorrhoids, I prepared the suppositories. I used one every night and in a month, they were gone. No more pain, bleeding and itching. Then I made some for a lady who had rectal cancer. She used them and said the suppositories stopped her pain, but then we lost contact.

My older daughter Maria Cristina's boyfriend has terrible migraines. When he gets them, he needs to lie down in a dark room; he can't move because movement causes vomiting and the pain in his right eye increases. When he has a migraine, Maria Cristina makes Agnihotra ash eye drops and gives them

Maria Mamud  
Miami, Florida

to him. Around one hour later when she applies the drops a second time, the pain and all the symptoms disappear. She does this every time he has a migraine. She also uses them when she has a migraine or headache.

My other daughter, Alejandra, learned how to prepare Agnihotra eye drops because she says they soothe her eyes' discomfort and fatigue.

We started to use these drops because my mother had a bacterial infection in her eyes that doctors in Argentina and Uruguay couldn't cure. The doctors gave her antibiotics but they didn't work. She didn't know when her glasses were dirty and her vision was blurred. We decided to give her Agnihotra eye drops for a week. On the fifth day that she used the drops she noticed that her glasses were dirty and asked me to clean them. I was very happy because she had recovered a little of her vision. However, she discontinued treatment; if she had continued, perhaps she would have been entirely cured.

One year ago when I went to the Peruvian jungle I got parasites. They affected my liver to the point that it almost didn't work, my spleen and my intestines. Because my liver wasn't functioning properly my whole body became inflamed, as if I had gained weight. I felt seasickness and weakness. I went to see

## Letter to Satsang

an iridologist. She gave me a food treatment and recommended that I take some enemas. I took the food treatment and put Agnihotra ash in the enema water for two weeks. The enemas expelled parasites. I also took a copper spoonful of Agnihotra ash three times a day for forty days. Now I'm cured and feeling very good. I also got pimples on my face because of the parasites. I used a cream made of Agnihotra ash and ghee as described in *Homa Therapy, Our Last Chance* and now I'm better, but I need to continue the treatment.

Maria Cristina has a food allergy that affects her whole body, but mostly her arms and legs. The only thing that stops her itching and cures her rashes is the cream made of Agnihotra ash and ghee.

My daughter Alejandra had a problem with constipation. After three days of taking a copper spoonful of Agnihotra ash, the problem was gone.

One month ago my husband started having the same ulcer symptoms he had years ago: stomach pain, stomach inflammation and bad breath. All these symptoms were gone the second week after he started taking a copper spoonful of Agnihotra ash three times a day.

May God preserve you in goodness. We are very well, doing Agnihotra every day, inviting people who take interest, ask for information, and are very motivated. It is very satisfying to hear that they are seeing different colors in the fire. They feel they are better in health and emotionally. It is good to hear that they are changing; they are very grateful.

Many doctors, lawyers and businessmen are participating. They are accepting the energies and understanding the healing power of the fire.

I should let you know that in the method of applying energy to cure sick people, I have incorporated the use of Agnihotra ash with very good results. Such is the case with two people that have terminal diseases-cancer. They do not suffer any more pain and there is no need for injections anymore. I don't know if they will get cured, but I know that they and their family are having a more peaceful life. They are very, very grateful.

May God guide your path.

*Abdhala Azizi  
Panama*

# More Success – Sigatoka Negra Project Update

*Irma Garcia*

Sigatoka Negra is a plant fungus epidemic which has killed thousands of acres of plantain and banana trees in South and Central America. Agricultural authorities in several affected countries have been unable to eradicate it, in spite of the many different types of controls they have tried. Now, for the first time, Sigatoka Negra has been eradicated by Homa Therapy methods in the deep Amazon area of Peru. The mayor of Puerto Cira, province of Puerto Inca has written to confirm this.

The Department of Agriculture of Peru has suggested that we try Homa Therapy methods at one place in Nueva Requena, in the province of Ucayah. This area, which is also in the Amazon, is seriously affected by Sigatoka Negra and other plant diseases which they have not been able to eradicate. They will make observations for the next four months. The Department of Agriculture decided to do this because of the results they saw in Puerto Cira.

Another mayor in the municipality of Tournavista (deep in the Amazon) also wants to conquer plant diseases by Homa Therapy methods in his entire area. The mayor personally went to Puerto Cira and saw the results there.

At a public place he built a cabin for performing Agnihotra and asked Master

Vasant to please visit his area. He said he wanted to build at least one Agnihotra hut and one Om Tryambakam hut in each of the twenty-three villages under his jurisdiction. While we were there, five Agnihotra huts were completed.

The mayor accompanied us in the Municipality's boat to several villages. In each place Master Vasant asked the same questions, and he received the same answers from the farmers: How is the production of plantains and bananas? Practically nil. (*This is devastating to people in these areas, because plantains are a staple food which they rely on to make a wide variety of dishes.-Ed.*) What about rice, another important staple food? Four years ago, they used to produce two tons of rice per hectare. Around two years ago, they used to produce about two hundred kilos of rice. Today, many farmers do not even recover their seed. What is the situation with manioc, their third staple food? Often it rots before harvest time and cannot be eaten. What about citrus fruits and other fruits? Different fungi, insects and worms spoil most of them. And vegetables? Production is greatly reduced, and what is harvested is often sick, even the potatoes.

So Master Vasant would ask them, "What will happen two years from now?" "We will have no food," they would

## From Vasant's Correspondence

invariably answer. One man in one village said, "Next year we will have no food." The mayor of Tournavista wants to do his best to reverse this trend and he is going to try Homa Therapy in his twenty-three villages.

One farm in the Santa Marta area of Colombia which was seriously affected by Sigatoka Negra has eliminated the disease by practice of Homa Therapy techniques (Agnihotra and four hours of Om Tryambakam Homa daily). It is also important to note that during the four months since these methods were implemented *the soil analysis shows that the acidity of the soil has been substantially reduced.*

Let go of all negative thoughts or ideas, impressions on the mind. Replace these thoughts with the positive and affirm the positive by doing your personal Mantra. Learn to speak only positively. Absolutely, steadfastly refuse to indulge in quarreling. It has too strong an effect on others. On the other hand, if you nurture and care for each other, the love you emanate is so pure, so wonderful. It has healing power.

So think always: These are my two choices. If I choose to argue I consciously choose to harm others around me. If I choose to love, to tolerate, to care, to understand, to harmonize, then I choose the highest good for all. And Grace will cast many blessings upon you.

In the Bible there is reference to the coming of the destruction. It is given in code. It is given, clearly given. It is time as told in the Bible. It is past time when destruction was to start.

One should give with one hundred percent love and care for one's family but guard against the attachment to circumstances that by nature are prone to change. Eventually on any spiritual path one's sense of security has to be clearly on a higher level-not based on if money is there, if husband or wife is there, if children are well, if job is secure, etc.

Fivefold Path Inc.  
Rt. 8, Box 369  
Madison, Virginia 22727  
USA  
Address Correction Requested

Internet address: <http://www.summit.net/home/Agnihotra>  
E-mail: [copworks@summit.net](mailto:copworks@summit.net)

Forget the past. If you have erred at any time in the past let it go. Practice of SWADHYAYA, self study, will point you in the direction that for you will yield most-spiritual growth and awakening. You can admit to making mistakes in the past, especially when another person from that past holds resentment against you. With all humility you can admit your wrongdoing. What more can be done? If, even after honest admission, the other person wants to still remain resentful, you cannot take the blame for this. Let it go.

Do not become miserable over past mistakes. Let it be a springboard for the future.  
**Do whatever you can with humility and without expectation.**

Who determines the goal in one's life?  
Ultimately each person must choose. An adolescent should choose good company. Each company we keep carries its own energy. So even if we are very good, if we choose to keep company with criminals that energy is taken onto us. Therefore, choose carefully the company you keep.

One has to develop in life goals for oneself. You can have short-term and long-term goals. Then it is good to keep these goals in mind when making decisions in life. Your goals are your choice. But it is important to examine them and perhaps to outline a plan for achieving them. Always keep in mind that there are more choices available to you than appear at any given time. Keep good company.
