Twice Monthly

CHRISTMAS 1978

Vasant

"Let thy light shine before men that they may see your good works and glorify your Father which is in Heaven."

(Matthew 5:16)

SON OF MAN IS HERE.

25th December is the day on which Jesus the Christ took birth. Jesus gave only one sermon during his manifestation on earth about two milleniums ago. This is the famous Sermon on the Mount. The Sermon on the Mount was given on 17th of May. Thus December 25th and May 17th are the two special days connected with the manifestation of Jesus the Christ.

Parama Sadguru Shree Gajanan Maharaj of Akalkot, India was born on 17th of May 1918. On Christmas day 25th December 1941 the allotted task of the Son of Man was revealed by the Will of Almighty Father. He was further informed that the time for unfoldment was yet to be. It is interesting to note that in the revelation the words used by the Divine were "Son of Man". Thus 17th May and 25th December are the two special dates connected with the manifestation of Avatar Parama Sadguru Shree Gajanan Maharaj, the Son of Man.

Parama Sadguru once said "Whatever Almighty has willed to be done through our instrument shall be done. Our whole life is totally dedicated to Him. He who revealed to us our allotted task shall grant us the necessary strength to fulfill it.

"It is not for us to advise people to follow any particular individual.

"If it is the will of the Almighty to convey to the world any message through us He will do so. We are merely his slaves.

"We are not votaries of any religious denomination. Whether it is the Bible or the Quran or the doctrines of Hindus we will convey the message with equal yearning.

"We have asked people not to call us GURU. Many have imposed Guruhood on us. Many have experienced superhuman powers with us. Many have witnessed miracles. We are mere witness of, not the doers of these things.

"We surrendered totally to the Almighty and He started utilizing our body as His instrument. Each one has to tread his path of Self realization."

The message of the Son of Man is,

“FILL ALL THE SPHERES WITH LOVE.”

The Son of Man speaks in terms of Eternal Principles of Religion, Eternal Religion. Krishna, Buddha, Zoroaster, Abraham, Moses, Jesus, Mohammed and others came to reiterate the Eternal Principles of Religion given in the beginning through Vedas. The word Vedas literally means knowledge. When people misbehave either due to sins of omission i.e. nonperformance of ordained duties or due to sins of commission i.e. wrong performance of ordained duties the Divine Messengers manifest in human form to set right things. They use the language suited to the conditions in which they take birth.

“That which was from the beginning, which we have heard.”

(Epistle of John 1:1)

“Whenever the Eternal Principles of Religion are under eclipse I manifest.”

(Bhagavad Geeta)

“We make no distinction between any of them (Prophets) and unto Him we have surrendered.

(Holy Quran 2:136)

When Jesus was put on the cross the curtain in the main temple was rent asunder and Fire came from the altar.

This was an indication that when the appointed time comes the Baptism of Fire will prevail. This means purification of atmosphere which leads to automatic purification of the mind by process of Yajnya given through the Vedic science of Biogenetics, Bioenergy and Medicine.

Daniel mentions this period as 2300 years.

“And he said unto me two thousand three hundred days, then shall the sanctuary be cleansed.”

(Daniel 8:14)

THE GRACE OF THE SON OF MAN HAS DESCENDED ON THE SCIENTIST. THE SON OF MAN WILL WORK THROUGH THE SCIENTISTS TO SPREAD THE MESSAGE OF LOVE, THE MESSAGE OF PURIFICATION OF THE ATMOSPHERE TO UNBURDEN THE MIND.

The revelations about the Cosmos given in *Satsang* during the past several months are the outcome of Grace of the Son of Man. The Son of Man is referred to as

SHREE in *Satsang*. Now the scientist, the statesman and layman all performe have to think in terms of ONE WORLD. There is no more function left to think in terms of sect or denomination.

In fact we have to think in terms of Cosmos and the intelligent energy that rules over us. Therefore the Son of Man has stated,

"We are that which was in the beginning which is the WORD. Our Name reflects that. We are the Saviour. Agnihotra atmosphere and ash is given to uplift the world. We go beyond the earth throughout all of creation spreading the message of Satya Dharma (Eternal Principles, Law)." The name of the Son of Man is GAJANAN. Etymologically the word means "He who is the symbol of the WORD that was in the beginning."

As stated in the beginning of the article the Son of Man does NOT ask you to call him your Guru. He certainly does NOT say that you have to appoint him as your advocate for liberation or salvation. He only asks us to practice the scientific method of purification of atmosphere i.e. Agnihotra to help plant life to maintain the Oxygen Carbondioxide recycling system. He asks us to practice the scientific method of purification of atmosphere through Agnihotra to fill the atmosphere with fragrance and nutrients as this would unburden the mind and lessen disease in the area. When the mind is unburdened Love manifests. Anger, greed and lust become less and one is automatically catapulted into the state of mind which is described as,

"NOT MY WILL BUT THY WILL BE DONE."

This leads to perfection.

"Be thou perfect as thy Father which is in Heaven is perfect."

You may belong to any formal religion, you may be an atheist or an agnostic, if you practice Agnihotra the Grace of the Son of Man will manifest to you as you offer your service in maintaining the harmony in the cycles of nature. Practice of Agnihotra brings harmony in cycle of nature. Agnihotra is based on law of nature which works irrespective of your opinion about the law. You may not even know the name of the Son of Man and start practicing Agnihotra as a material aid in the cure and elimination of disease and still His Grace will manifest through you. So you can see that you do not have to change anything to become the recipient of the Grace of the Son of Man. You only practice Agnihotra fire to bring harmony in nature and this will help you to lead a happy life on earth as automatically the tension on the mind is eliminated.

The Advent

The above statement very clearly shows that the Son of Man has not come to start a new sect or a new religion. This is the sign of the New Era that we have entered into. The sun has already risen on the New Era. We have already entered the New Era which is designated as SATYA ERA (Era in which eternal laws of nature are observed). This is the ADVENT that the world has been waiting for.

Kalki Avatar

In some Eastern tradition there is a mention of a new Avatar (Divine Messenger) who is designated as KALKI.

In Sanskrit the word KALKA means pollution. Hence KALKI AVATAR means AVATAR for the destruction of pollution. The Son of Man is reviving the lost science of Baptism of Fire by spreading the message of Agnihotra. The worst type of pollution is thought pollution. Practice of Agnihotra makes plant life happy and the plants give us the feedback effect of Love which removes all tension from our mind. Thus we learn automatically to react with Love to each and every circumstance in life.

SHREE IS KALKI AVATAR. The Son of Man is KALKI AVATAR.

The Son of Man says,

"Children of the world, do not fall. Let everything be taken care of by the Master. There need be no sadness, no sorrow.

"Children come. LAST DAYS BEGIN NOW.

All sickness, let it be healed by Our Hand. All sorrow let it vanish from thy souls.

Ask not what the world has to give you. Give it up. Then you can give of your own. However small you think you may be the Power of Love is great. The message is swift and sure."

On September 21, 1944 the Son of Man affirmed that He would resuscitate the knowledge given through the Vedas. This was the beginning of the New Era on which we see the sun has risen. When the Son of Man makes affirmation the work is done. It is only a matter of time when we see the manifestation. The Son of Man will be revealing to the scientists several gems from the treasure house of knowledge that is Vedas and the scientists will take the lead in transforming this planet into the Kingdom of Heaven. We may witness several natural catastrophes before we clearly experience the Kingdom but His words shall be fulfilled.

The Bible States

"And great earthquakes shall be in diverse places and famine and pestilences and fearful sights and great sign shall there be from Heaven.

And there shall be sign in the Sun and the Moon and in the stars and upon the earth distress of nations, with perplexity, the sea and the waves roaring.

Heaven and Earth shall pass away but my words shall not pass away."

This is the thirty fifth year of the New Era, (Satya Yuga) which commenced in 1944 when the Son of Man made the affirmation to revive the ancient Vedic knowledge. The Kingdom of Heaven is here. The scientist will deliver us into this Kingdom. Let us learn to keep our faith in the scientist and help him get us out of the misery brought about by the indiscriminate use of technology.

HOMA THERAPY FOR FARMING

Vasant

Science takes into consideration soil fertility but not much attention is paid to the fertility of the atmosphere. Atmospheric content exerts much influence on soil especially the trace elements which are so necessary for harmonious life cycles in plants.

In the ancient science of biogenetics, bioenergy, bacteriology, medicine and agriculture given through the Vedas it is stated that there is a hydrosphere on the lithosphere, there is a hydrosphere in the atmosphere and there is a hydrosphere in the solar range that is the space between the sun of our solar system and the planet in the solar system from which the person is speaking. If harmony is maintained in all these three ranges and the whole space is filled with atoms of Love the plants grow quicker and better. The capacity of the plant to extract nutrition from the atmosphere is enhanced and the metabolism and nuclear structure of the plant is beneficially affected.

All this knowledge is as old as creation but it came to be lost in course of time. Now it is being revived under the name Homa Therapy.

"Homa" is a Sanskrit word meaning "fire" prepared under certain disciplines based on biorhythms generated by the movements of the planet in a solar system. There are numberless billions of solar systems.

Vedas describe a method based on biorythmic fire prepared in a pyramid shaped copper pot (copper has healing vibrations) which acts as a switch to generate an aura energy field around plants when several electricities, ethers and subtle ener-

gies are thrust into the atmosphere at the coordinate of the planet where the sun appears to rise i.e. at the time of sunrise.

The above statements made in Vedas have not yet been examined for their validity by modern science. However, in each and every case when the garden is grown by the above biorhythmic method gardeners in America have reaped a big harvest in quality and quantity. In fact the Americans say that you can grow double the crops without using any chemical fertilizers, insecticides, pesticides, simply by following the bioenergy Homa Therapy Farming method given by the Vedas.

(The above is the English translation of a circular letter issued by Homa Therapy Centre, Bilthoven, Nedarland based on farming Bulletins published by Agnihotra University).

GLIMPSES FROM ANCIENT MEDICINES

Vasant

Geese carry disease due to Pollution

Elimination of disease comes through breaking down certain barriers of encrusted intersphere that become clogged, one might say from pollution. The element that clears the blockage is HOMA. It is given for all of man to perform.

Geese carry disease. Remember We told you? It is a fungus that grows between the oily coating on their feathers and their bodies. Merely losing a feather and it making contact with something living. Its symptoms are terrible. Headaches, bodily aches, nausea, vomiting, dizzy spells, blackout, more intense headache and eventual loss of motor coordination as it spreads to the blood and then to the brain.

Cure:

Keep a glass of water in a green glass in the sun.

In the water after one day put powdered Agnihotra Ash.

Mix them, strain the ash.

Drink the water.

Drink juices and eat only fruit and fresh green leafy vegetables.

Plenty of rest.

Drink only boiled water.

Chlorine acts negatively with this fungus so preferably use spring water or water purified by Agnihotra water purifier.

THINGS SPEEDING UP

Vasant

Time is mixing, changing, things speeding up.

Rhythmic orbiting of certain spatial planets are setting up energy patterns for some revelation to one child on this planet.

Vedic Mantras gear and maneuver these planets; they actually cause them to orbit in another solar system around another sun like they do.

The Mantra Bhu Swaha (Vyahrti Mantra) is heard by child in Boston from beings from another planet. The date this is given it is an indication of further things to come from that planet relating to Vedic knowledge.

AGNIHOTRA GIVES DIRECT EXPERIENCE

Vasant

I am interested only in science. Through science much concerning pollution related diseases and natural phenomenon will be revealed. Of course normally the scientist does not reveal known cures until adequately tested and proven results are obtained. But in this case the results can be experienced directly and let them go further into analysing it later. Actually now is the time for it. Agnihotra can be experienced even by a small child; so certainly a scientist will be able to experience himself.

*Practice AGNIHOTRA

for purification of the atmosphere which leads to unburdening the mind.

*Practice DAAN

(sharing of assets in a spirit of humility) for reducing attachment to worldly possessions.

*Practice TAPA

(self-discipline) for fruition of thy affirmations.

*Practice KARMA

(good actions without attachment to the fruit thereof) for self-purification.

*Practice SWADHYAYA

(Self study, Who am I?) for liberation.

This is the Fivefold Path. Start the spiritual discipline today. The span of life will not be extended. What is given unto you is to utilize wisely every moment of your existence. Let us engage ourselves in meritorious deeds without expectation of

reward in the form of name or fame. We can live only in the present moment. The past is no more. The future is yet to be. Do not waste the precious moments in trivia.

Practice the Fivefold Path and you become a better member of your family or community. You will become a more righteous Christian, Jew, Buddhist, Muslim, Hindu, Zoroastrian, Sikh, Jain, whatever be your formal religious label. You may be an atheist or an agnostic, you will benefit by practicing the Fivefold Path. The Fivefold Path sets up life patterns based on biopsychological techniques given through Vedic knowledge. You need not carry the hypothesis of God to practice the Fivefold Path. You start the practice and knowledge will be unfolded to you from within. Believe only what you experience. This is the approach of a true scientist.
