

AGNIHOTRA IN CHILE

Yolanda F. de Rayo, Vice President
Great Universal Brotherhood, Vina del Mar

The Great Universal Brotherhood founded by Dr. Raynaud de La Ferriere has many Centres all over the world including all Latin American countries.

The Centre at Vina del Mar in Chile had the special privilege to receive the visit of the Master Vasant Paranjpe from the Fivefold Path Mission spreading the eternal knowledge given in the Vedas in a new way for humanity of the New Era. All those involved in the happening of this visit felt it as a special blessing of the Divine to receive the secret teachings, a proof of His Love and protection.

During this occasion some special things about Chile in relation to the New Era that we have already entered were revealed to us. Vasant told us that before coming to Chile he visited three special places in U.S. and did some special Yajnyas there. These places were: Biloxi in Mississippi, Nantucket in the Atlantic, and Puget Sound in the Pacific. The next energy point was Chile.

We all experienced the profound effect of Agnihotra and more so because it was performed by an authentic Master.

The Agnihotra meetings were at the same time "Satsang" which means "Being in the presence of a Master" which has its own uplifting effect. The effect is difficult to explain in words because something is transferred without words. We all felt at these moments surrounded by unknown high vibrations.

Teachings in words were also given by the Master. What he taught us was simple and essentially practical. The essence of his teaching was **BE FULL OF LOVE FROM MOMENT TO MOMENT. BE LIKE CHILDREN AND AS A MATERIAL AID PRACTICE AGNIHOTRA TO UNBURDEN THE MIND.**

He made it specially clear that we were not asked to give up our beliefs or religion; neither were we asked to change the life we were living, nor asked to follow a certain Guru. The only aim is to become aware of the Eternal Laws of nature. He further stated "Experience how the purified atmosphere of Agnihotra purifies the mind. Discover the law of **GIVING IS RECEIVING** and the law of **REAP AS YOU SOW.**"

Again and again the Master insisted that all we are asked is to be full of love to discover the law of Grace.

He told us the importance of Agnihotra Yajnya to plant life. He asked us to do Agnihotra for the sake of our gardens. "The crops will give you a feedback of their Love", he told us.

Several activities took place during his visit. A public lecture was arranged in the Municipal Hall. Here as at every other place Mary was the perfect translator. Vasant gave personal interviews to several people from different professions including an architect woman who made plans for construction of an Agnihotra temple. He also met a group of people who had done translations in Spanish of several *Satsangs*, several portions from Vasant's book "Light Towards Divine Path" and some other material concerning Agnihotra.

Besides these activities the Master was specially interested to visit a certain place in the western mountains of Chile which he said was a special place. He even seemed to know that Deities live there.

Also the Master wanted to see Cecilia who lives with three more young people in the mountains in the North of Chile in a valley called Elgui (30 degrees south). Master Vasant, Ma Avistha and myself undertook the trip. We travelled by bus for eight hours passing through the town La Serena and arriving at a place called Coquimbo where we stayed in a good friend's house. Her name is Rosita. And what a great surprise. Cecilia had come to that house the same night and so did Carlos who normally lives up in the hills where the Master wanted to go the next day.

To reach those mountain places is quite difficult. People normally go there walking or on horse. The next day a camionetta (car) was arranged which took us up to a point where the rough road ended our further journey continued on horseback. It was a beautiful trip. The climate is dry here. The road goes through brown mountains and valleys. We could see red earth, bushes, rocks, palm trees, cactuses, raisin fields and high mountain peaks, faraway snow peaks. We were in the company of many wild horses, goat and sheep.

Some special things may be mentioned here which impressed all. The Master arrived in Chile from U.S. on 7th of July and Ma Avistha arrived the same day from Europe although she was not scheduled to come that day. Their arriving about the same time at Santiago, Chile's international airport seemed more than a coincidence.

Yaya drove both of them from the airport to Vina del Mar. As they came out of the airport terminal the Master was delighted to see a road sign 'Valparaiso'. He said that he did not know that it was the name of the city we were going to which he had mentioned to someone in America a few weeks before. This was the second thing which was more than a coincidence.

The third incident was really a pleasant shock to us to witness how Masters work. When we reached Coquimbo Master Vasant mentioned two names, St. Andreas and Una. He said he wanted to visit those places that very day. None of us knew where the places were as we had not heard these names in Chile. We asked our host Rosita and she said she didn't know either. Master Vasant said that we were going to visit those places that very day and we would be guided to those places in the western mountains of Chile. When the day was over our host Rosita remembered that the place in the mountains which we visited that day where she owns large acreage used to be called St. Andreas in old days.

Our trip by car ended at Cecilia's place in the mountains where a special Homa (Yajnya) was performed. At this place Cecilia, Carlos, Leonardo, and Mario are now working to construct a Fire Temple. They have been practising Agnihotra regularly.

Our journey on the horseback began from this point. We managed to get four horses to ride to the place which Master Vasant wanted to visit. Master's horse was called Tanga. It took about one hour to reach a flat area on top of the hill. We rode through a valley surrounded by high mountain peaks. We tied the horses to a tree and started walking downhill for a while to see if someone was around where we saw some sheep grazing. Suddenly one of the horses broke loose and started running in the direction of a place in between two mountain peaks where there was snow. July is mid winter in Chile as we are south of the equator.

Suddenly the Master pointing in the direction the horse was going said "That is Una, the special place we were looking for. This is a place where Vedic Yajnyas were performed in ancient days. The horse has shown us the way." Surprisingly enough the place where we had tied the horses is exactly the place where the Great Universal Brotherhood plans to build a temple for the New Era. The project is nearly ready.

At this place some special Mantras were sung by the Master and Ma Avistha.

Leonardo rode another horse in the direction of Una and brought back the horse which had run loose and our return journey on horseback began in the dark of night. When we reached the place where our car was parked we asked Leonardo

and Carlos to go into the village huts and inquire if anyone had heard of the name Una. Finally they met one inhabitant of the mountain valley who said that the name "Quebrada Una" was given to a part in between two mountain peaks where there was snow and he had seen it mentioned in old army maps. You can imagine our joy when we heard it.

It may be mentioned that this area is also known to the scientists because of its extremely clear sky. 360 days of the year there is total visibility. They say it is the highest rate of visibility on earth. Perhaps this is why this place was chosen for an astronomic observatorium called "Tololo".

During Master Vasant's stay in Chile several persons were initiated in a personal Mantra.

The Master left Chile for U.S. on 11th of July '78. We might conclude that we all feel the Masters coming to Chile as a special initiation to Chile related to times to come.

Homa Therapy Farming

Vasant

A PLANT'S STRENGTH DEPENDS UPON THE NUTRIENTS OF THE SOIL AND ATMOSPHERE THAT SURROUNDS IT. SCIENCE PERHAPS DOES NOT LAY SO MUCH STRESS ON ATMOSPHERE BUT IT IS ONE OF THE BIGGEST FACTORS DUE TO THE OXYGEN RECYCLING SYSTEM. ALSO IF THE ATMOSPHERE IS FILLED WITH NUTRIENTS THE PLANT BECOMES ESPECIALLY HAPPY WHEN THIS IS DONE BY YAJNYA PROCESS. THIS HELPS INCREASE NUMBER OF SEEDS, NUMBER OF FERTILE OR POTENTIALLY FERTILE SEEDS GERMINATED. ALSO, PERIOD OF GERMINATION IS HELPED AND THE QUALITY OF POLLEN PRODUCED IS IMPROVED. WHOLE OF REPRODUCTION CYCLE OF PLANT IS BENEFITED BY YAJNYA ATMOSPHERE.

A STRANGE PHENOMENON OCCURS WHEN PLANTS ARE BRED IN AGNIHOTRA ATMOSPHERE. AN AURA TYPE FIELD OF ENERGY IS GENERATED FROM THE PLANT AND EXISTS AROUND THE PLANT WHILE

AGNIHOTRA IS PERFORMED IN ITS PROXIMITY. THE FIELD CONTAINS NUTRIENTS AND VIBRATIONS OF LOVE. THE PLANT IS CONTINUALLY ABLE TO DRAW ON THIS RESOURCE THAT IS GIVEN BY PERFORMANCE OF AGNIHOTRA IN THE AREA. THIS GIVES THE PLANT THE ABILITY TO MAINTAIN MAXIMUM GROWTH AND YIELD LEVELS. AT THE SAME TIME A FEEDBACK OF LOVE IS GIVEN TO THE AREA HELPING TO NEGATE THE EFFECTS OF THOUGHT POLLUTION.

PLANTS GROWN IN YAJNYA ATMOSPHERE EVOLVE NETWORKS OF VEINS THAT ARE CYLINDRICAL AND LARGER THAN NORMAL PERMITTING WATER AND NUTRIENTS EASIER MOVEMENT TO ALL PARTS OF THE PLANT HELPING GROWTH AND REPRODUCTION CYCLES. ALSO, IT HELPS IN PRODUCTION OF CHLOROPHYLL AND PLANT BREATHING THEREBY HELPING THE OXYGEN RECYCLING SYSTEM OF NATURE.

AERATION OF SOIL OF COURSE IS AN IMPORTANT PART OF SOIL. IF HOMA ASH IS PLACED ON TOP OF SOIL BEFORE IT IS TILLED OR CULTIVATED IT DOES A LOT TO HELP NOURISH THE PLANT AND MAKE THE PLANT HAPPY. IT IS IMPORTANT TO MAKE THE PLANT HAPPY AS THAT IS THE WAY THE PLANTS CAN START TO GIVE US THE FEEDBACK EFFECT OF LOVE. THE MORE LOVE YOU PUT INTO THE FARM OR THE GARDEN, THE MORE HOMA IS PERFORMED, SPECIFICALLY REVOLVING AROUND AGNIHOTRA THE GREATER THE VIBRATIONS OF LOVE WILL BE IN THE AREA, THE HAPPIER THE PEOPLE WILL BE.

GRASSHOPPERS BECOME TREMENDOUS PESTS BY NEXT SUMMER. NO WAY TO CONTROL THEM. THERE IS ONE METHOD ACCORDING TO HOMA THERAPY. IF YOU USE THE SPRAY MENTIONED BEFORE MADE OF AGNIHOTRA ASH, DRIED COWDUNG AND DISTILLED WATER AND SPREAD ASH ON THE GROUND THE PLANT WILL BE SPARED.

TOFU CONFERENCE AND AGNIHOTRA TOO

Sue White

Don Nicolson and I attended the first Soycrafters Association of North America conference held at Ann Arbor Michigan on July 28, 29 and 30th. During a lunch break a lady from New Mexico spotted the name tags we were wearing and said she always wanted to travel to Baltimore. I thought that a little odd but she said she believed that Baltimore was one of the great spiritual centers of the planet. We told her a little of Agnihotra and that evening she sat with us for sunset Agnihotra.

While we were there we checked the local bulletin boards at the health food stores, restaurants etc. When the tofu meetings were over the high energy of the weekend seemed to come to an abrupt halt. So we visited a Sufi center. It was a few minutes before sunset so we all sat together for Agnihotra. They enjoyed it much. We all

then went out to get ice cream. We stayed that night at their place. One lady, Zeb-un-nisa really liked Agnihotra a lot and asked where she could get a pot and materials to do Agnihotra. So we gave her an extra Agnihotra pot we had. We performed Agnihotra in their meditation room and taught Zeb-un-nisa the Mantras and gave her a cassette of Mantras which we had brought from Agnihotra Press. We also gave her the book "Light Towards Divine Path".

On Monday we checked around a few local groups related to health and healing. On Tuesday we went to the University of Michigan and tried to locate a group which was suggested to us. After various calls at the University we could not locate the group.

I then went to the Biology department and left *Satsangs* from June 1978 and also the second *Satsang* of May 1978 with the secretary of the department. We also handed over to her 'Heal the Atmosphere' flyers and a xerox copy of the sheet with Ronnie's picture showing vegetables grown according to science of Yajnya given through the Vedas and a write-up of the same. I requested her to make sure that our literature gets to the chairperson.

I then went over to the Pharmacy School and got in touch with a young doctor who was one of the persons in charge of the school. I talked to him for a few minutes about Agnihotra and Agnihotra Ash medicines and left with him our literature. I told him that he could write to us if he wanted further documentation. He said he would read the material and wanted to know if we wanted it back and further said that it sounded like an Eastern kind of thing.

I also visited the Psychology center of the University of Michigan and dropped off Agnihotra literature including 'How to Prepare Agnihotra Medicines' sheet. I requested the secretary to put up our literature on the Faculty bulletin board.

All this was very nice because we both had the feeling of just turning on as many people as possible to the many ways soya products could be introduced into man's diet to replace animal products and spreading the message of atmospheric purification through Agnihotra.

SO MADISON NOW

Vasant

Several new communities to come up now with our people. The need for communities, self-sufficient by means of organic farming and selling of produce must start now. Many will be involved later as teachers of our schools within the community and also in other areas. Now is the time to start.

One such community can start at Madison. People who want to live there and raise families should look into purchasing land or building cabins or some such

home dwelling on the area of 61 acres. Purchase of land also important in and around Madison area.

We need volunteers for Madison. Carpenters, well-diggers, builders, workers. Now we must start building up Madison. If people want to start building a structure on the land then let them. If they cannot purchase the land let them build on it and live there and help to begin to bring together others in Madison area. We need people who are devoted to do this now. So Madison now.

FROM SATSANG CORRESPONDENCE

Dear Vasant,

It is not easy to serve. We must first be purified through many difficult and often painful trials. We must face the trials with love and courage though we may want to run and hide.

Many times in the past two weeks when I was accompanying you in your whirlwind tour of several states I lost my courage because of the strict disciplines involved while travelling with you and wanted to flee home to the 'safety' of non-involvement. However, thanks to your strength Vasant, and Shree I did not. Now I know that only through such things is in being with Him. To achieve this we must walk a long and difficult path all the while remembering that He is always with us holding our hand and helping us every step of the way.

You are such a guiding light. Thank you for the precious gifts you have given me, love, strength and understanding. My deepest love and gratitude to you and especially to Shree for sending you to guide His children home.

With love and devotion
Darlene
