

WE NEED SCIENCE

Elwood Taylor

Things and conditions are in a terrible state of affairs. Even a blind man could see the rapid decaying state of this whole society. Dogs and other animals in Texas have been attacking quite a few people. The victims have been infected with what seems to be the rabies. But they do not respond to normal treatment for rabies and no apparent cure has been found. Consequently the medical ego is deflating fast. Medicines are no longer effective now.

A young intern at University Hospital refused a copy of *SATSANG* recently stating he thought it some kind of religious literature. I told him, 'This has nothing to do with any religion. This is science that you and the whole world need. You are in training to be a physician and you have nothing to heal with and you know it.'

I told him about the epidemics of blindness and skin cancer. This seemed to hit him in the right spot. He readily admitted medical science having its problems in combating the illnesses of today. There are medical malpractice suits probably in the millions now throughout the nation.

Agents of destruction like red ants and grasshoppers are getting out of control. Grasshoppers appear in huge mounds as high as six feet. Red ants are continuing their destruction. The people are unprepared.

The media is becoming a little more open now. Much coverage is given to the state of the Earth. Scientists are occupying more television time than ever before. They are openly and publicly admitting that the Earth and its population are in terrible danger of total destruction.

I am quoting below excerpts from *SATSANG* which will show how things are stated far in advance in *SATSANG* based on revealed knowledge:

INSECTS

"Insects are terrible. Mothers will find them crawling everywhere unless Agnihotra is performed in their households." (June, 1978)

"Insects begin to play a role in the destruction of man. IT WILL BE TERRIBLE WHEN THE MUTATIONS BEGIN TO MULTIPLY.

THEY WILL ATTACK CROPS AND DESTROY THEM. BECAUSE NATURE IS OUT OF BALANCE DUE TO POLLUTION THEY HAVE NO PREDATOR. ADD THIS TO THE DROUGHT, FLOODS AND OTHER DISASTERS AND MANY WILL STARVE. AGNIHOTRA ATMOSPHERE IS THE ONLY WAY OUT."

(September, 1977)

"STOP THE INSECTS. THEY START TROUBLING FROM NOW. THEY ARE IMMUNE TO INSECTICIDES, PESTICIDES, COLD. LINE YOUR HOUSE WITH AGNIHOTRA ASH. ONLY WAY TO CONTROL THEM."

(July, 1978)

"Insects now mate with others causing new varieties of pests that man won't know how to deal with. Beneficial insects die. Crops become a problem with this."

(September, 1977)

"AGNIHOTRA ATMOSPHERE CONTROLS ANTS AND SPIDERS. ESPECIALLY THOSE FIRE ANTS PEOPLE HAVE BEEN SPEAKING ABOUT." (July, 1978)

"All of biophysical realm undergoes change. How else can we cope with pollution? It is like the insect that becomes immune to the insecticide. A point can be reached though where there is no more immunity but destruction." (September, 1977)

"Serpents appear. Hybrid insects. They all look monstrous. People may begin to feel they are living in a world of science fiction." (September, 1977)

WATER

"Water resources on earth are finding it difficult to absorb energy from the sun. This will result in depletion in marine life and imbalances in nature. This will take its toll in terms of natural disasters like flood and earthquake." (June, 1978)

"Water should be purified before drinking in nearly all parts of U.S. Fresh water supplies are slowly becoming pools of pollution." (July, 1977)

"Now water pollution takes its toll in the United States as in the poorer countries. No water is relatively safe to drink now. Soon you will find kits on sale for purifying the water you drink." (September, 1977)

WEATHER

"RIVERS OVERFLOW IN SUMMER. LAST YEAR IN SOME PLACES NOT ENOUGH WATER. THIS YEAR TOO MUCH." (July, 1978)

"TEXAS ALSO HAS DROUGHTS IN SOME PARTS, FLOODS IN OTHER. HOW CAN THIS BE IN ONE SMALL AREA? EVERYTHING IS CHANGING AND PEOPLE MUST BE AWARE THAT HOMA MUST BE DONE." (July, 1978)

"MORE CLIMATIC DISTURBANCE AS EARTH SHIFTS MORE ON ITS AXIS" (June, 1978)

"Fantastic winds come now. Hurricanes and tornados year round. SOMEHOW THEY WILL BLOW AROUND PARAMA DHAM AND AGNIHOTRA PRESS BY GRACE." (June, 1978)

DISASTER

"All continents now changing, all in a state of flux. Now there will be considerable movement of land that can be experienced in many places. This will cause much disaster. Much change in constitution of earth to come, chemically and biologically, geographically and ecologically. SCIENTISTS, WHY NOT TRY AND EXPERIMENT WITH HOMA? SO MUCH YOU ARE LEARNING WAS KNOWN BY THE ANCIENTS IT IS THE ONLY WAY OUT AND THERE IS VERY LITTLE TIME." (June, 1978)

"VEGETABLES SHOW DAMAGE FIRST. IT IS A MUST THAT AGNIHOTRA BE DONE IN CONJUNCTION WITH FARMING. (July, 1978)

"Time is nearing now. Much suffering is there in all parts of the world. All peoples will suffer. Pollution alone will kill millions in years to come." (July, 1978)

"Electrical power shortages will be common place." (July, 1977)

"Disasters strike several parts of the world in a big way soon. It has to do with the currents and the amount of pollution. Where there is drought there will be flood and where there are floods there will be drought. All weather changes."

"IT SOUNDS LIKE SCIENCE FICTION WHAT WE ARE TALKING. ACTUALLY IT IS ABSOLUTE TRUTH." (October, 1977)

“Flash flood warnings. Terrible. Towns even cities wiped out.” (November, 1977)

“All these things we are writing in *Satsang* sound far fetched perhaps and like they are from a science fiction book. However, even more so is what science and technology has done to our ecosystem and planet by robbing it of its nutrients and forgetting to replenish the energy cycle of the planet with nutrients and fragrance.” (November, 1977)

FROM VASANT'S CORRESPONDENCE

“In your meditations when you have questions answers will come. You cannot expect however to sit down and receive an answer one day because for that one time you have meditated. You must train and relax the mind to a certain point by meditating regularly every day. Then automatically you become attuned to another energy cycle and receive higher knowledge through subtle channels.

The key is not to meditate deeply once a week but to observe strictly, exactly all meditation timings each day. Most people find it difficult to free their minds in order to attain some 'higher states' during meditations. This, although it may be a benefit, should not be a goal in meditating. Goals should be relaxing, training the mind to be better able to absorb the tension placed upon it by outside sources, for example pollution.

Forget any arguments with If you argue, then just speak less. She has her own way of thinking, her own problems. Let her say anything and it should not disturb you.”

MIDDLE/SOUTHERN EUROPE TOUR

Cárola and Reiner

Leaving Bilthoven, Holland 8th September we were blessed to spend 25 days spreading the message of Agnihotra and Fivefold Path in Germany, Switzerland, France, Spain and Italy.

Over whole of Europe a fat curtain of pollution hangs like death. While travelling from north of Germany down to south of Spain, sunshine couldn't reach us. The mountains were completely covered and returning one week later even nearby trees and villages could not be seen clearly.

Many TRYAMBAKAM YAJAMAHE Yajnyas were done at different places and Homa Therapy farming and Agnihotra ash medicine information were told to

many. They listened carefully. But TO PRACTICE AGNIHOTRA IS THE BIGGEST THING and we urged people to make their own experiments and observe for themselves what happens.

At a Centre in Barcelona, Spain we did a six hour Yajnya as was taught there by Homa Therapy teachers before and we were invited to come again. During another Yajnya in an old barn, we observed and experienced how animals collected all around and were so peaceful.

In Milano, Italy we visited the Institutio of Mr. Carlo Patrian where we performed Yajnya at the end of a class. After distributing copies of TRYAMBAKAM YAJAMAHE Mantra, the students started quickly to sing with us.

In Milano a three day Agnihotra Seminar was given at the Institute by Vasant last year in which John Brown participated.

We spent a few days traveling through North Germany to Bremen, Osnabruck, Burhufe and other places.

In Salobrena, Spain Mrs. Guse arranged several meetings for us. Every day we were there we did Yajnya for a few hours.

In France we had several talks in Nice and Marseille.

We told all we met who said they were searching for happiness—and who is not?—that Mantra (vibration) and Yajnya Fire were the material aids to help our own bodies and minds as well as others around us.

FIVEFOLD PATH IN SOUTHERN EUROPE

Stuart Masill

During August Werner Metzger of Kriya Yoga University Germany and myself departed from Bodensee area of Germany for Southern Europe. We met many Agnihotris in Austrian villages where farming dominates the lifestyle.

Arriving at the Homa Therapy Center in Graz, Austria a large group of people had surprisingly gathered for the evening. Yajnya, vibrational (Mantra) therapy, Satsang and lecture intensified the understanding of the importance of Homa Therapy Centers. Many of the people who had come were attending for the first time.

After leaving Graz we met with a medical doctor in Klagenfurt, Austria who after practicing Agnihotra for some time had formulated a COMPLETE HEALING SYSTEM BASED ON AGNIHOTRA ATMOSPHERE AND AGNIHOTRA ASH.

Interestingly enough the doctor knew nothing of Agnihotra University in U.S.A. but many of his own findings coincided with the Agnihotra University Farming Bulletins published in U.S.A. as well as with Agnihotra ash pharmaceutical studies made in Germany. He is compiling case studies and other scientific evidence to study the acclaimed healing effects of Yajnya.

The visit to Yugoslavia proved to be complementary to that of Austria. We met with an atomic physicist and a hospital director. It was stated that several experiments with control groups were made prior to our visit. Results have been positive. **THE PHYSICIST STATED THAT AGNIHOTRA AND AGNIHOTRA ASH IS A NECESSARY PROCESS FOR HEALTHY EXISTENCE ESPECIALLY IN THE COMING TIMES. GRACE HAS TRULY DESCENDED ON THE SCIENTIST!**

Werner continued to Greece and Italy. I returned to Austria for a week of Yajnyas ranging from 24 to 60 hours in Henndorf and Graz.

24-HOUR YAJNYA IN CHILE

Irene Mutis

A 24-hour Yajnya was performed at our house in PÉna-Blanca commencing at 6 p.m. on May 8. Lisa from Agnihotra Press and Janet, my sister, were the first persons to perform in the Yajnya. Other people who performed were Thelma, Sylvia, Patricia and myself. Other people came to watch including a social assistant, two doctors and some students, about 15 people total.

We used eucalyptus wood to perform the Yajnya. It's a very good medicinal tree especially for some respiratory sicknesses. We used 1½ kilograms of ghee.

Many people told us that to sit around the Yajnya fire was relaxing. Before the Yajnya started I had a severe sore throat. During the Yajnya it disappeared. About four hours after the Yajnya stopped, it returned. I took some Agnihotra ash with honey and now I am better.

ONE LADY SAID SHE WISHED SHE HAD KNOWN ABOUT YAJNYA TEN YEARS AGO.

SATSANG NEWS

India

Reiner of West Germany informs *SATSANG* that he has received a report from Mr. S. D. Ramachandran of Sarvodaya Mandal, Coimbatore which states as follows:

“Here Agnihotra work is developing. At Gobi so many people wanted to do Agnihotra on their farms and at home. All the pesticides and the insects moved from the crops in their farms after practicing Agnihotra. People are eager to do this work now and I am helping them to do it.”

FROM SATSANG CORRESPONDENCE

Jackson, Mississippi

Moments of joyous experience should not be negated from our thoughts of happiness so I'm taking the time out to write about a very special event that took place in April. It concerns the consistency of the Fivefold Path with a group of kids in the area of the Adelle Street Fire Temple here.

A clubhouse was constructed and designated as a place for performing Yajnya. The floors were lined with pieces of rugs, small shelves were built and roses and other flowers were placed upon them. Entering the clubhouse shoes were removed just as if it were a Fire Temple. New faces are more prevalent than ever. Shree's Grace manifest more and more as Yajnyas are performed.

It does not really matter how one accepts his Karmic action but how well he goes about covering up the bad Karma by performing good Karma. For it is in the heart how one feels and it is here that Shree resides.
